## **Gustav Shpet's Contribution to Philosophy and Cultural Theory (Comparative Cultural Studies)**

This book offers original research by leading scholars from the United States, United Kingdom, Germany, France, and Russia, which covers the central areas of Shpet's work on phenomenology, philosophy of language, cultural theory, and aesthetics and takes forward the current state of knowledge and debates on his contribution to these fields of enquiry. The book also contains, for the first time in English translation, the most seminal portions of Shpet's book-length study of hermeneutics, which is his most significant work for contemporary students of cultural theory. The first part of the book maps out Shpet's legacy in the main areas of his multi-faceted work; the second part examines in closer detail particular aspects of Shpet's philosophical affiliations and contributions in the framework of cultural theory, phenomenology, hermeneutics, and in the field of Russian intellectual history; the final part features the publication of extracts from Shpet's 1918 book on hermeneutics.
