"The Craftsman tool you have purchased is a quality tool with which you can quickly and expertly accomplish a variety of operations, if you will set it up properly and thoroughly learn how to operate and maintain it and its attachments and accessories, in the manner in which these are intended to be used. Every job your tool is designed to do requires not only "muscle" but, also, some planning and follow-through thought. The tool provides the "muscle"; it is up to you to do the thinking. Each different type and model number tool has its own specifications, and may require set-up, operating, adjustment and maintenance procedures that are different for this particular model number...The instructions given in this book cover a wide range of operations. It is quite possible that some of these operations should not be attempted with your particular model tool. **YOU MUST BE GUIDED SOLELY BY THE LIMITATIONS AND RECOMMENDATIONS CONTAINED IN YOUR OWNER'S MANUAL...**" (from introduction)
