Traité d'obstétrique (French Edition) Loïc Marpeau

La prise en charge de la femme enceinte et de son accouchement a beaucoup évolué depuis quelques années. Les connaissances scientifiques, les organisations, la législation, les femmes elles-mêmes ont changé. Le raisonnement obstétrical a gagné en objectivité ; il ne se bâtit plus seulement sur l'expérience d'un seul ou l'influence d'une école, il s'appuie aussi sur des preuves et des recommandations. Il fallait qu'un ouvrage d'obstétrique rassemble **tous les acquis récents**.

Pour cela, ont été réunies **les compétences de tous ceux qui se consacrent à la périnatalité**, en particulier sages-femmes et gynécologues-obstétriciens. Plusieurs chapitres, reflet de ces échanges, ont été écrits en binôme, d'autres par les uns ou les autres en fonction des sensibilités. Les **internistes**, les **anesthésistes**, les **pédiatres** et de nombreux spécialistes ont été sollicités pour **offrir aux lecteurs la culture médicale la plus adaptée** possible.

Une large place a été faite à la **physiologie**, à la **normalité**, à la **pratique quotidienne**. Ainsi les plus jeunes, internes et étudiants sages-femmes, pourront apprendre, en lisant ces pages, à **confronter les évidences théoriques aux réalités du terrain**.

La pratique de l'obstétrique a toujours été délicate. Ce livre, issu d'un travail collaboratif, est un outil qui doit permettre à tous de partager sereinement la même passion.

Inclus avec ce livre : la version numérique du traité.

Démonstration de la version Internet - Partie V : Interventions obstétricales : chapitre 59

cliquez ici **La nouvelle référence rédigée par une équipe pluridisciplinaire, sous l'égide du Collège national des gynécologues et obstétriciens français (CNGOF), du Collège des sages-femmes, et de l'Association des sages-femmes enseignantes françaises (ASFEF).**

- La physiologie de la grossesse et de l'accouchement.
- La grossesse et l'accouchement normaux.
- Les grossesses pathologiques.
- Les accouchements difficiles ou pathologiques.
- Les interventions obstétricales.
