The War in Vietnam Anthony O. Edmonds

The Vietnam War marked the first time in history that the United States did not achieve its central goal in going to war. This analysis of the causes, events, and legacy of the war in Vietnam is designed for high school and college student research into a war whose economic, political, and social consequences are still being felt today. Students today cannot understand Americans' present cynicism about government, loss of faith in political officials, and reluctance to become involved militarily in distant areas of the world without understanding the causes and legacy of the war that changed Americans' perception of their country and its role in the world.

Written by an expert on the Vietnam War, this book features an introductory narrative overview of the war incorporating the most recent scholarship and seven topical essays. Ready-reference features include a chronology of events, lengthy biographical profiles of twenty-one major players, the text of twenty-four primary documents, including first-person accounts, poems, speeches, and government reports, a glossary of selected terms, and an annotated bibliography of recommended books, electronic resources, and feature and documentary films. This resource will help students gain a deeper understanding of the reasons for American involvement, the dramatic events of the war in which more than 58,000 Americans lost their lives, and the war's continuing legacy.

Juan Gilbert:

As a student exactly feel bored to reading. If their teacher questioned them to go to the library or even make summary for some publication, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this The War in Vietnam can make you truly feel more interested to read.
