Can horses really teach us to be better human beings? In this groundbreaking work, you will discover that the answer is a resounding "Yes".

While working with severely disturbed youths, therapists Adele and Deborah McCormick discovered the best healers were their herd of Peruvian Paso horses. Through their work with horses, the McCormicks' patients were initiated into the hidden world of animal energy and instinct, and found a safe and natural way to learn about their own dualistic natures. Patients learned to tap into their primal "animal" mind and energies and apply them toward more creative and responsible living. What took days or months to uncover in an office setting took only minutes when patients were on a horse.

You will read case after fascinating case of people discarded by society and the psychiatric community whose lives were turned around by the intuitive guidance and friendship of their equine therapists.
