Hadoop: The Definitive Guide Tom White

Discover how Apache Hadoop can unleash the power of your data. This comprehensive resource shows you how to build and maintain reliable, scalable, distributed systems with the Hadoop framework -- an open source implementation of MapReduce, the algorithm on which Google built its empire. Programmers will find details for analyzing datasets of any size, and administrators will learn how to set up and run Hadoop clusters.

This revised edition covers recent changes to Hadoop, including new features such as Hive, Sqoop, and Avro. It also provides illuminating case studies that illustrate how Hadoop is used to solve specific problems. Looking to get the most out of your data? This is your book.

- Use the Hadoop Distributed File System (HDFS) for storing large datasets, then run distributed computations over those datasets with MapReduce
- Become familiar with Hadoop's data and I/O building blocks for compression, data integrity, serialization, and persistence
- Discover common pitfalls and advanced features for writing real-world MapReduce programs
- Design, build, and administer a dedicated Hadoop cluster, or run Hadoop in the cloud
- Use Pig, a high-level query language for large-scale data processing
- Analyze datasets with Hive, Hadoop's data warehousing system
- Take advantage of HBase, Hadoop's database for structured and semi-structured data
- Learn ZooKeeper, a toolkit of coordination primitives for building distributed systems

"Now you have the opportunity to learn about Hadoop from a master -- not only of the technology, but also of common sense and plain talk."

--Doug Cutting, Cloudera

From reader reviews:

Gilbert Johnson:

The book Hadoop: The Definitive Guide make you feel enjoy for your spare time. You should use to make your capable more increase. Book can to get your best friend when you getting anxiety or having big problem along with your subject. If you can make reading a book Hadoop: The Definitive Guide to get your habit, you can get much more advantages, like add your capable, increase your knowledge about many or all subjects. It is possible to know everything if you like wide open and read a publication Hadoop: The Definitive Guide. Kinds of book are several. It means that, science publication or encyclopedia or some others. So , how do you think about this book?

Katherine Lee:

This Hadoop: The Definitive Guide usually are reliable for you who want to be considered a successful person, why. The key reason why of this Hadoop: The Definitive Guide can be on the list of great books you must have is actually giving you more than just simple examining food but feed you actually with information that perhaps will shock your before knowledge. This book is actually handy, you can bring it just about everywhere and whenever your conditions throughout the e-book and printed kinds. Beside that this Hadoop: The Definitive Guide forcing you to have an enormous of experience like rich vocabulary, giving you demo of critical thinking that we know it useful in your day action. So , let's have it and revel in reading.

John James:

Spent a free the perfect time to be fun activity to accomplish! A lot of people spent their down time with their family, or their friends. Usually they doing activity like watching television, gonna beach, or picnic within the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Can be reading a book is usually option to fill your cost-free time/ holiday. The first thing you will ask may be what kinds of publication that you should read. If you want to try out look for book, may be the e-book untitled Hadoop: The Definitive Guide can be fine book to read. May be it can be best activity to you.

Ruby Martinez:

Reading can called head hangout, why? Because if you are reading a book particularly book entitled Hadoop: The Definitive Guide your mind will drift away trough every dimension, wandering in every single aspect that maybe unfamiliar for but surely will become your mind friends. Imaging every word written in a guide then become one contact form conclusion and explanation which maybe you never get previous to. The Hadoop: The Definitive Guide giving you yet another experience more than blown away your mind but also giving you useful information for your better life with this era. So now let us explain to you the relaxing pattern the following is your body and mind will be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary shelling out spare time activity?
